About

I'm a full stack web developer looking to improve upon my skills and have a constructive impact in my future role. I'm able to build single page applications with responsive web designs and connect them to RESTful servers. I look to surpass what is expected of me and deliver impressive, quality work in a reasonable timeframe.

Skills

- HTML5
- JavaScript
- TypeScript
- Python
- Node
- Docker
- SASS/SCSS
- AngularJS
- Webpack
